ABSTRACT

This activity book provides a list of varied resources available to students as they work through the instructional objectives at the Fort Lincoln school. Items listed include equipment and supplies ordered for the school, books, selected offerings from the metropolitan community, selected programs provided by the D.C. Public Schools, science and ecology experiments, and some miscellaneous but exciting ideas. Each item is matched to one or more objectives, either terminal or intermediate in the following areas: Discovery or preschool, reading, mathematics, science, social studies, communications skills, arts and humanities, and health. Three columns to the right of the item describe the item in terms of classification or type of activity, location in school, and level at which the item most probably would be instructional. There is a column for remarks, and a complete list of distributors is enclosed at the end of this book. (For related documents see ED 047 171 through ED 047 188.) (Author)

ACTIVITY BOOK

A Guide to Objectives and Resources

The purpose of this book is to provide a list of varied resources available to students as they work through the instructional objectives at the Fort Lincoln school. Items listed include equipment and supplies ordered for the school, books, selected offerings from the metropolitan community,[1] selected programs provided by the D. C. Public Schools,[2] science and ecology experiments, and some miscellaneous but exciting ideas.[3]

Each item is matched to one or more objectives, either terminal (T) or intermediate (I), in the following areas: Discovery or preschool, reading mathematics, science, social studies, communications skills, arts and humanities, and health. The complete collection of objectives may be found in a separate volume entitled Objectives for the Fort Lincoln School.

Fewer activities are listed for those subjects which either require little material (speaking) or use readily available materials (newspapers). Many activities are implicit in the objectives themselves and are therefore not suggested here. Users of the book are invited to add their own ideas in the spaces provided or to comment on those items already listed.

Three columns to the right of the item describe the item in terms of classification (class, see below) or type of activity, location (loc) in the school, and level
